

Claudi Agapi

Workshop - Guesthouse

You find our Workshop – Guesthouse in **Arillas/Agios Stefanos at Korfu**. This area is a famous place for many different workshops for to go deeper with mindfulness, awareness and love. At the green island Korfu you can immerse yourself in the amazing nature and recharge your soul.

We offer you a **place only for your group** where you can be together with eating and overnighting, do your retreat and stay calm without interference from other groups.

Our **Highlights:**

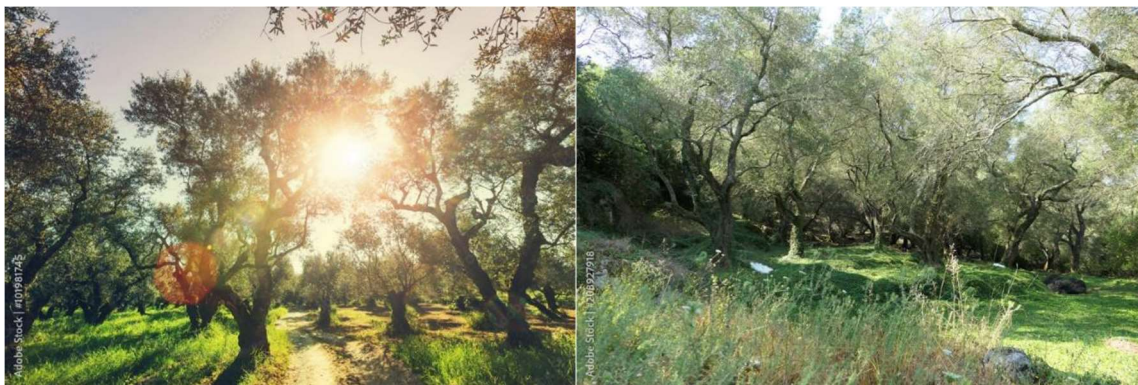

- Rooftop 130 m² with 360-degree panoramic views of the sea, the olive groves and the hilly landscape, a pergola provides shade
- Meditation room with kitchen, shower room and balconies
- shady olive grove with a plateau of 400 m²
- 8 apartments (8 double rooms in total) each with kitchen area, shower room and balcony/terrace
- 300 meters to the wide sandy beach via a footpath between bamboo plants and lots of greenery
- Pool with bar + restaurant 20 meters to go
- Further accommodation options in apartments or hotels within walking distance of 3 neighbors
- Meals, shuttle and other needs on request.

Particularly impressive is the beautiful view from the many balconies of the apartments to the bay of Arillas, the beach of Agios Stefanos and the indescribably amazing mountainous landscape with olive groves and endlessly beautiful nature.

Our very unique special place is our **big rooftop area** with 130 m². Here you have the feeling that you can fly! You have a 360 degree view over the entire region of Arillas, Afionas, Agios Stefanos and Kavvadades. It is an ideal place for your retreat and also for sessions, concerts...

Our further highlight is our **butterfly olive garden** situated down from the house with a platform of 400 m² and around only olive groves. On the often very hot summer days you will find here a pleasant shade. This place is also miraculous and the opposite of the rooftop. Here you have a special silence in the midst of nature. It is a great mystery place for to feel more inside and be protected by the nature.
